Product description

Aluminum listing trolley

Paper trolley in various sizes and designs guarantee the safe and optimal collection and disposal of even the most sensitive data and documents in accordance with the applicable legislation in this area.

The equipment subject to data protection legislation can be collected in our disposal containers or listing trucks and then transported to destruction according to regulations. These vehicles can be equipped with various locking systems according to requirements and are, of course, protected against unauthorized deletion of data by third parties. Please contact us for this.
