Product description

Glass plate container 1350x805x1642 mm

This glass plate container is a practical solution for safely and efficiently transporting glass plates, among other things. The container is TÜV certified and made of high-quality steel, making it very sturdy and durable. Measuring 1350 x 805 x 1642 mm, the container has single-sided loading, allowing you to load and unload the glass plates quickly and easily. The coating resists corrosion and provides good protection for the container.

Advantages:

- Sturdy and durable construction
- Suitable for transporting glass panes
- Single-sided loading for fast and efficient loading
- Hot-dip galvanised for a long service life

Tips:

- Use the container for safe and efficient transport of glass sheets.
- Do not let the container load above the maximum weight.

Specifications

Article arrangement: New

Version: one-side loading

Colour: colorless

Length (mm): 1350

Internal width (mm): 618

Internal height (mm): 1500

Weight (kg) 48

Type number: 1350V

EAN Code (Gtin) 8719424229448

Type: glass transport container TÜV

Material: steel

Surface treatment: galvanized

Width (mm): 805

Height (mm): 1642

Loading capacity (kg): 1000

Options: one-side loading

Additional specifications: with 4 insertion profiles for fork-lift truck
