Product description

Glass plate container including 4 clamping bars. 2200x900x2200mm

This glass plate container is a practical solution for safely and efficiently transporting glass plates, among other things. The container is TÜV certified and made of high-quality steel and is therefore very sturdy and durable. The top of the glass plate container has lifting eyes (not certified for hoisting). The container has a size of 2200 x 900 x 2488 mm, is equipped with double-sided loading with both a width of 266 mm. This allows you to load and unload cargo quickly and easily. The coating is resistant to corrosion and provides good protection for the container.

Advantages:
- Sturdy and durable construction
- Suitable for transporting glass plates
- Double loading for fast and efficient loading
- Hot-dip galvanised for a long service life

Tips:
- Use the container for safe and efficient transport of glass sheets.
- Do not let the container load above the maximum weight.

Specifications

Article arrangement: New	Type: glass transport container TÜV
Version: double-side loading	Material: steel
Colour: colorless	Surface treatment: galvanized
Length (mm): 2200	Width (mm): 900
Internal width (mm): 266	Height (mm): 2488
Internal height (mm): 2200	Loading capacity (kg): 2000
Weight (kg) 135	Options: double-side loading
Type number: 2200	Additional specifications: with 4 insertion profiles for fork-lift truck
EAN Code (Gtin) 8719424229493
