Product description

A nestable 3 rack roll cage, bearing the Kruizinga brand, is a versatile and efficient tool for transporting and storing goods in various industrial and commercial environments. With a total load capacity of 300 kg, it is suitable for storage and transport of medium-heavy goods. Made of electro-galvanized steel, which ensures durability and protection against corrosion. Mesh walls with a mesh size of 50x50 mm provide good ventilation and visibility of the contents, while ensuring the safety of goods. The roll cage features one open side, which is convenient for easy access to contents and quick identification of stored goods. Equipped with an A-frame bottom with 2 rubber swivel casters and 2 fixed-wheel casters with a diameter of 125 mm. This makes the roll cage easily maneuverable even in confined spaces. Rubber wheels provide excellent stability even on uneven surfaces, are noise dampening and help reduce vibration and shock. This is beneficial in protecting the goods being transported. The collapsible walls and bottom make the roll container space-saving and nestable among themselves when not in use, optimizing valuable storage space. This roll cage is designed to optimize logistics processes, increase efficiency and save space when not in use. A valuable tool in various business environments where goods transportation and storage are involved.

Specifications

Article arrangement: New

Version: A-nestable

Walls: mesh 50*50 mm

Subgroup: 3-Sides

Colour: colorless

Length (mm): 845

Width (mm): 734

Height (mm): 1800

Loading capacity (kg): 300

Type number: 1547

EAN Code (Gtin) 8719424234169

Type: 3-sides

Material: steel

Wheels front: 2 castor wheels solid rubber with wheel locks 125 mm

Wheels back: 2 fixed wheels, solid rubber 125 mm

Surface treatment: electro-galvanized

Internal length (mm): 790

Internal width (mm): 660

Internal height (mm): 1675

Weight (kg) 42.5

Additional specifications: rubber wheels with wheel locks
