

## Technical information

Productnumber : 98-6986GB-SET

### Product description

The combination of the plastic undercarriage and the two collapsible plastic stacking bins euronorm enables efficient and organized storage, transport and movement of goods. This combination is often used in warehouses, distribution centers, stores and other business environments where logistics and storage play a role. The collapsible function of the stacking bins makes it possible to save space when not in use, and the robust construction of both the undercarriage and the bins ensures a long-lasting and reliable solution.

The plastic undercarriage is a sturdy frame made of durable plastic material. It is designed to be stable and resistant so that it can safely carry and move the stacking bins. The material is lightweight plastic, rust-resistant and easy to clean. The undercarriage has rubber wheels that roll smoothly on different surfaces, making it easy to move the cart even when loaded. The rubber wheels on the undercarriage are designed to roll quietly and not damage floors. Rubber has excellent damping properties, reducing vibration and noise while moving. This makes the undercarriage with stacking bins ideal for use in environments where quietness and floor protection are important.

The collapsible plastic stacking bins have a Euronorm size of 800x600, which means they conform to standard sizes commonly used in logistics and transport. These stacking bins are made of sturdy and durable plastic material. They are designed to save space when not in use by being foldable. With a capacity of 170 liters each, they offer considerable storage space for a variety of goods.

### Specifications

Article arrangement: Used

Version: material storage trolley

Walls: walls closed

Food-safe: no

Wheels back: 2 fixed wheels, solid rubber 125 mm

Colour: red

Length (mm): 800

Width (mm): 600

Height (mm): 1100

Volume (ltr): 170

Type number: 6985GB

Type: combination kit

Material: plastic

Floor: closed

Wheels front: 2 castor wheels solid rubber 125 mm

Euronorm (mm): 800 x 600

Surface treatment: signs of use

Internal length (mm): 760

Internal width (mm): 570

Internal height (mm): 410

Weight (kg) 8

EAN Code (Gtin) 8719424228762
