Product description

Used IBC liquid container (without UN certification) made of HDPE (High Density Polyethylene) 1000 litres with plastic/steel base. Solid stacking construction with excellent handling properties and high stability.

The reason why you need a UN quality mark is because if you are going to transport hazardous substances, you must comply with the ADR regulation. Also known as Accord européen relatif au transport des marchandises dangereuses par route.

Please note! In addition to the ADR regulation, you must also comply with other national and international legislation. The Environment and Transport Inspectorate has an up-to-date overview of these laws.

- Filling opening 150 mm
- Ball valve 2" inch

Caution! NOT rinsed clean: remnants of salmon oil (see photos).

See also the adapters below for all connection options. If you cannot find the right adapter, please contact us.

Specifications

Article arrangement: Used

Version: 1000 ltr

Colour: transparent

Length (mm): 1200

Height (mm): 1150

Weight (kg) 57

Additional specifications: NOT cleaned

Type: fluid container

Material: steel pallet

Surface treatment: signs of use

Width (mm): 1000

Volume (ltr): 1000

Type number: 035
