## Technical information

**Productnumber : 12-M40EURD**

### Product description

The Master Lock Disc Padlock features a 70mm wide stainless steel body for maximum strength, reliability and corrosion resistance. The fully encased design minimizes shackle exposure and protects against bolt cutter attacks. The 10 mm diameter octagonal shackle is 16 mm long and made of Tough-Cut Boron Carbide, 50% harder than hardened steel, for maximum resistance to cutting and sawing. The 4-pin cylinder prevents prying open and the double ball bearing lock offers maximum protection against prying and slamming. The covered keyhole offers maximum protection from the elements and the reinforced lock body bumper protects against scratches.

- Tough-Cut Octagonal Boron-Carbide shackle is 50% harder than hardened steel
- 70-mm wide, stainless steel body for maximum weather resistance
- Fully encased design minimizes shackle exposure and protects against bolt cutter attacks
- Reinforced housing bumper to protect against scratches
- 4-pin cylinder for increased security against lock picking
- Covered keyhole for maximum protection from the elements
- Key retention function ensures padlock never stays open

### Specifications

Article arrangement: New  
Version: completely enveloped  
Surface treatment: stainless steel  
Type number: M40EURD

Type: discus padlock  
Material: stainless steel  
Width (mm): 70  
EAN Code (Gtin) 8719424174069
