Technical information

Productnumber : 12-140EURD

Product description

The padlock has a 40 mm wide body made of solid copper that is strong, durable and corrosion resistant. The 6 mm diameter shackle is 22 mm long and made of hardened steel, making it extra resistant to cutting and sawing through. The 4-pin cylinder prevents the lock from being cracked, and the dual locking levers provide additional protection against breaking and opening. The limited lifetime warranty offers peace of mind coming from a brand you can trust.

- Padlock with 40 mm wide solid copper body for strength, durability and corrosion resistance
- Shackle made of hardened steel that is extra resistant to cutting
- Cylinder with 4 pins for increased security against lockpicking
- Double blocking levers for added protection against breaking and opening

Specifications

Article arrangement: New

Version: with double locking levers

Colour: golden colour

Type number: 140EURD

Type: padlock

Material: steel

Width (mm): 40

EAN Code (Gtin) 8719424226591
