Technical information

Productnumber : 42.199.28.165

Product description

Flexible steel protective bollard for protection of roller and fire doors, transitions on driveways, ramps, etc. against collision damage. The intelligent bollard, equipped with a steel spring in combination with an elastic buffer made of polyurethane, minimizes damage to the post and the vehicle. The protective post can tilt 25 degrees (approx. 310 mm). The striking yellow posts are made of 4.5 mm thick high-quality steel with a diameter of 159 mm and are provided with black signal stripes. The bottom plate has a height of 270 mm and a diameter of 35 mm and is provided with 4 drilled holes with a diameter of 14 mm. screw 8/100 (article number: 42.109.17.393) of 4 x through anchors for concrete floors 12/120 (article number: 42.109.24.665) of 1x ground pipe to be poured into concrete including screws (article number: 42.199.25.395)

Specifications

Article arrangement: New

Version: crash protection bollard

Subgroup: Protection guards

Surface treatment: plastic-coated and galvanized

Height (mm): 655

Type number: 42-BP-199

EAN Code (Gtin) 8719424115543

Type: bumper protection

Material: steel

Colour: black/yellow

Width (mm): 159

Weight (kg) 17

Additional specifications: for indoor and outdoor use
