Technical information

Productnumber : 42.198.27.574

Product description

Support post for ram protection planks / impact protection crossbars that provide protection for columns, posts, work areas, walls, pipes, etc. against damage caused by forklifts in the warehouse or workshop. The striking yellow brackets are made of 3mm thick high quality steel. The dimensions of the feet/bottom plates are 160x140x10 mm (lwxh) and each has 4 drilled holes with a diameter of 14 mm. Easy to assemble and easy to expand with multiple support posts in combination with crossbars (see combinable with).

Required mounting material (NOT included as standard - see to be combined with):

4 x universal plugs S12 with screw 8/100 (article number: 42.109.17.393) or

4 x through anchors for concrete floors 12/120 (article number: 42.109.24.665)

Specifications

Article arrangement: New

Version: collision protector, norm

Subgroup: Protection guards

Surface treatment: plastic-coated and galvanized

Height (mm): 465

Weight (kg) 9.5

Additional specifications: for indoor and outdoor use

Type: impact protection

Material: steel

Colour: yellow

Width (mm): 80

Depth (mm): 80

Type number: 42-DB-C

EAN Code (Gtin) 8719424055429
