Product description

Used shelf rack set, with a full size of 2040x1040x1470 mm is a practical and versatile solution for retail spaces or storage locations. This rack is double-sided, allowing items to be placed on each side of the rack. The set includes 3 uprights, 6 legs, 12 shelves, 16 supports and 20 back panels. The design offers flexibility when setting up shop or organising storage space, making it easy to present and organise products. With sufficient shelves and carriers, this rack offers plenty of space to display different items in an orderly manner. The back walls provide additional stability and support, while the system is easy to assemble for quick and efficient installation. This rack is perfect for use in shops, warehouses or other environments. The height of the shelves can be adjusted, making the rack flexible in organising and displaying various items.

Specifications
