Product description

A used steel stacking bin on legs with 4 closed and profiled walls is a robust and versatile storage container. This type of stacking bin is often used for storing and transporting parts, materials, tools and other items in various industries, such as manufacturing, logistics and construction. The stacking bin is made of sturdy steel, which ensures durability and resistance to wear, impact and other forms of damage. The four closed and profiled steel walls offer protection to the bin's contents. The stacking lugs are designed to safely stack the bins on top of each other, saving valuable space during storage and transport. The storage bin stands on legs, making it easy to pick up with a forklift or pallet truck.

Specifications

Article arrangement: Used
Version: 4 sides
Walls: corrugated steel plate
Colour: blue
Length (mm): 960
Width (mm): 580
Height (mm): 510
Insertion height (mm): 100
Volume (ltr): 150
Type number: 6989GB

Type: fixed construction stacking box
Material: steel
Floor: profiled steel
Surface treatment: painted and use damage
Internal length (mm): 880
Internal width (mm): 520
Internal height (mm): 330
Stackable height (mm): 440
Weight (kg) 42
EAN Code (Gtin) 8719424228861
