

Technical information

Productnumber : 72122410

Product description

Perhaps the most famous ladder of the Netherlands. The Mounter is equally strong as stable. The light weight I-profile is specifically designed for intensive use. Moreover, this combination ladder is also multifunctional. Use it as a extension ladder along the wall or simply switch it to an A-position. Perfect for every job.

The unique D-shaped rung is firmly in place thanks to its special shape. Moreover, the deep standing surface gives you more standing comfort and the stabiliser beam also provides additional stability. The ladder is easy to extend in and out through the automatic locking swing hooks and the top rollers at the ends. The distinctive black coating is also another nice addition to dirt repellent.

The Red Step® on your ladder/steps indicates the height at which you can safely work. In the blink of an eye, you can clearly see how high you can go.

Specifications

Article arrangement: New
Version: 2-part lid, 2x10 steps
Subgroup: Ladders
Width (mm): 1080
Depth (mm): 1520
Options: Norm: EN 131
Height when folded (mm): 2800
Work height (mm): 5900

Type: Altrex combination ladder
Material: aluminium
Colour: black
Height (mm): 2800
Weight (kg) 16
Type number: 122408
Additional specifications: type use: professional
EAN Code (Gtin) 8719424174434
