Product description

Pallet offer of plastic storage bins 144x - 350x200x150 mm is ideal for storing your stock of small equipment and service parts. With ergonomic half-open front and practically stackable. The contents of the storage bin are thus easily accessible and stacked, they do not take up unnecessary space. Very suitable for grab stocks (order picking) in workshop, garage, warehouse racks or service trolleys.

The optional lids or inserts made of crystal-clear plastic prevent the contents from getting dusty and keep them protected. With lids, the storage bins are also very suitable for use as internal shipping units. See combinable articles.
