Product description

Wash your hands and prevent contamination of COVID-19 (Coronavirus) with hand disinfection poles!

Automatic and contactless hand disinfection pole suitable for all public places such as schools, companies, shopping malls, etc. The plastic (ABS) gel dispenser is equipped with an infrared sensor to prevent hand contact with the dispenser and is therefore very hygienic. It works on 4 batteries LR6 (not included) and has a capacity of 0.85 liters. Features an adjustable flow rate from 0.5 to 2.5 ml and dispenses the right amount of gel with each use. Easy to fill by means of a large filling opening at the top, locked with a lock and key. Suitable for hydroalcoholic gel (except microspheres). The disinfection pole is equipped with adjustable legs and therefore has a very high stability. The pole is made of steel with anti-corrosion treatment with anti-UV coating. The top of the post is fitted with a blank signage board (self-personalizable optional).

Dimensions standard: 380x380 mm

Diameter post: Ø 30 mm

Width signage: 230 mm

Height to bottom of dispenser: 1127 mm

Total height: 1630 mm

Specifications

Article arrangement: New

Version: automatic and contactless

Subgroup: Sanitary

Surface treatment: powdercoating

Width (mm): 380

Volume (ltr): 0.85

Type number: 52510

Type: Hand disinfection post

Material: steel/plastic

Colour: grey

Length (mm): 380

Height (mm): 1630

Options: against contamination of COVID-19 (corona) virus

EAN Code (Gtin) 8719424157802
